Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 August 2005.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed on 8/23/2005 have been fully considered but they are not persuasive. Applicant should note that the rejection is not under a 102 but rather under a 103. The Examiner explained that while there is no explicit mention of thresholds or values, still the Palcic et al.'190 reference teaches the use of a remittance image to account for non-uniformity due to different changes including illumination intensity (see col. 2, lines 28-31). As such the rejection is maintained and made Final.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-15 and 33-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Palcic et al.'190 (US Patent 5,827,190).

Palcic et al.'190 teach normalization of at least one fluorescence image by using a remittance image or as otherwise stated, reflected reference light image, in order to correct for many factors including light intensity allowing for differentiation of normal and diseased tissue (see col. 2, line 20-col. 3, line 37). Palcic et al.'190 teaches the use of a remittance image to account for non-uniformity due to different changes including illumination intensity (see col. 2, lines 28-31).

While Palcic et al.'190 do not specifically address specified values, it would have been obvious to one skilled in the art at the time that the invention was made that the normalization process necessarily incorporates specified values or thresholds in order to differentiate normal from abnormal tissue as this is well within the knowledge of skilled artisans.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eleni Mantis Mercader whose telephone number is (571) 272-4740. The examiner can normally be reached on Mon. - Fri., 8:00 a.m.-6:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Casler can be reached on (571) 272-4956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
